Southern California

<u>Coast (Sat-Sat Night)</u>	<u>Inland (Sat-Sat Night)</u>
Temps: Lows: 50-65°F; Highs: 70-95°F	Temps: Lows: 60-85°F, with 50s in the mountains; Highs: 90-105°F, with 70s and 80s in the mountains.
Humidity: Night: 60-95%, except 20-35% in eastern Santa Barbara and western Ventura Co; Day: 20-60%, except 8-20% in eastern Santa Barbara and western Ventura Co.	Humidity: Night: 10-45%; Day: 5-20%
Winds: Light and variable <u>overnight</u> , becoming west-southwest 5-15 mph during the day. Sundowners of 25-40 mph developing in SW Santa Barbara County during evening and overnight hours.	Winds: Southwest 5-15 mph. In some mountain locations and the Antelope Valley, west-southwest winds 10-20 mph with gusts 20-30 mph possible in the afternoon and evening.
Precipitation: Dry.	Precipitation: Dry.

Outlook for **Sunday** through **Thursday**:

Temperatures will peak 10 to 15 degrees above normal for northern California and about 5 to 10 degrees above normal for southern California early week. Weak Sundowner winds of 25 to 40 mph are expected to continue through at least Sunday night.

Monsoonal moisture looks to return to southeastern California during the middle part of next week. A weak weather system moving west to east across northern California combined with moisture from the south will bring the chance of a mix of wet and dry thunderstorms to the mountains of northern California midweek. The chance of isolated showers and thunderstorms may reach as far west as the LA Mountains mid to late week. Significant precipitation is not expected at this time, but a more progressive weather pattern looks to set up late next week for northern California which may bring periods of breezy winds and chances of precipitation.

Red Cross

- Thursday night, the Red Cross and our partners cared for nearly 750 Californians seeking refuge from wildfires in about 19 emergency shelters, which includes locations where people have chosen to stay outside in RVs or tents. Since June, we've provided 17,800 overnight stays for people in need.
- Since the fires began, nearly 1,300 Red Cross disaster workers have supported relief efforts in person or virtually. About 340 volunteers are still active across the state today.
- With the help of partners, the Red Cross has provided some 72,400 of meals and snacks and distributed nearly 5,000 relief items including comfort kits, fire kits, and other supplies to help people in need. These kits include items like toothbrushes, toothpaste, cleaning supplies and sifiers.
- Trained Red Cross volunteers have made nearly 15,000 contacts providing emotional support, health services and spiritual care for people who've been evacuated.

CA-ESF 10: Hazardous Materials

Air Quality Index Map (airnow.gov) – California Environmental Protection Agency (Cal EPA) as of [September 4, 2021](#), at [0515 Hours](#):

- CARB continues to support affected air districts and air quality agencies. A total of 33 portable air monitors are currently deployed (a new monitor was deployed yesterday in the community of Tahoma, CA, in El Dorado county) throughout the state to support local air quality agencies and is visiting their equipment storage caches in Redding, Mariposa, Ukiah, Santa Barbara and Fresno to manage inventories and resupply monitors and supplies. CARB will continue to develop plans and schedule air-monitoring deployments as needs and resources are identified. CARB along with affected air districts, USEPA and US Forest Service continue to hold daily meteorology and air monitoring coordination calls to predict emissions and plume movement, discuss air quality forecasts, review active and pending requests for monitoring support and provide operational updates on the air quality monitoring response.
- Based on yesterday's PM2.5 Air Quality Index (AQI) many communities in the following Northern California counties experienced air quality in the unhealthy to very unhealthy category: Lassen, Plumas, Sierra, Nevada, Placer, El Dorado, Amador, Alpine, Calaveras, Tuolumne, Mono and Siskiyou. Today's forecast predicts [improving](#) air quality in many locations with AQI expected in the [unhealthy for sensitive groups](#) to [unhealthy](#) category. Parts of Calaveras, Amador, El Dorado and Placer counties can [continue to expect](#) air quality to be in the [very unhealthy](#) AQI category.
- The Sacramento Valley, Bay Area, Southern California, and foothill and mountain communities in the southern Sierra Nevada mountains are expected to receive [similar](#) air quality today as yesterday, with AQI predicted to be in the moderate to unhealthy for sensitive groups category.
